

THE ULTIMATE SANITIZING AND DISINFECTING CABINET

The ZONO system uses ozone to safely kill 99.9% of common bacteria* like Staph and E. Coli and 99.99% of common viruses+ like Norovirus (disinfecting level). One of nature's most powerful oxidizers, ozone has been used as an organic sanitizer since the early 1900's.

The ZONO system is a powerful sanitizer and disinfectant for all surfaces. It sanitizes and disinfects items safer and more effectively than bleach or other chemicals. Place items like bedding, wood blocks, books, puzzle pieces, sleep mats, car seats, battery operated toys, keyboards, plush toys, and much more.

Unlike other sanitizing methods, the ZONO system is Eco friendly. It uses green technology that creates no harmful waste or discharge.

Easy to use

Simply load toys and materials on to a rack then wheel the rack into the ZONO cabinet. To begin sanitizing, lock the cabinet and enter the start code! Thirty minutes later, the items are ready for immediate use.

Safely sanitize and disinfect in 30 minutes!

Validated through independent testing

No staff attention required during cycle

Integrated Cart System ensures optimal workflow and reduces contamination

No wiping or rinsing of items

Leaves no residue

Sanitizing does not damage or discolor

Eliminates odors

Lice and bedbug killing heat option

Eco Friendly

*Staphylococcus aureus, Methicillin-Resistant Staphylococcus aureus, Escherichia Coli, Streptococcus Pyogenes, Shigella dysenteriae, Salmonella Enteritidis, and Pseudomonas Aeruginosa on non-porous, semi-porous and porous surfaces. +Norovirus on non-porous surfaces.

Simple. Safe. Sustainable.
